After the discussion with investors and service-providers, the Board concluded that it is necessary to allow shareholders to be registered directly in the Register. The Board and service-providers are handling with the process of direct shareholders registration in the Register. Due to emerged lack of liquidity in ITI Funds Russia RTS UCITS ETF SICAV sub-fund the Board of Directors also resolved that it should cease the reference index tracking and to begin assets selling of to cover ongoing costs. For all sub-funds, a non-tradable Net Asset Value was calculated on January 16, 2024 (date of the beginning of the liquidation) for the purpose of these financial statements. These non-tradable Net Assets Values were based on the latest available market prices of the investments as at closing date.

Report of the Board of Directors

The Fund in general

At of the beginning of the year 2024 the Board of Directors (the "Board") of ITI Funds UCITS ETF SICAV (the "Fund") received a notification of the cancellation of the last remaining listing on Moscow Exchange. The delisting was done by the exchange due to termination of the base listing on Euronext Dublin earlier at the end of the year 2023. In this scope the Board decided to terminate remaining agreements with service-providers related to exchange listings to reduce ongoing costs.

The Board also reconvened the Extraordinary General Meeting of shareholders (the "EGM") dedicated to the voluntary liquidation of the Fund to January 16, 2024 (the initial EGM had taken place at the end of December 2023 with no necessary voting quorum reached). There was no voting quorum requirement for the reconvened meeting. The Board reported the Fund's status to the Luxembourg Regulator and contacted Luxembourg Ministry of Finance to explain plans of portfolio assets selling.

On EGM, which took place on January 16, 2024, shareholders approved the Board's proposal to put the Fund into the voluntary liquidation and to appoint the Liquidator.

Sub-fund - ITI Funds Russia RTS Equity UCITS ETF SICAV

The sub-fund inception date is 30th of January 2018 with USD 25 initial NAV per share. The sub-fund is denominated in USD and targeted to track index of most liquid Russian stocks on the initial investment plus accumulates dividends which are paid by underlying stocks. Accumulated stock dividends minus costs are to be distributed annually. In the year 2023 the Board of Directors ceased tracking of the reference index by the sub-fund and started the assets selling process. Due to the position of the Management Company, potential selling is restricted by amount of outstanding sub-fund payments. The Board didn't recommend any dividend to be paid in January 2024.

As of the most recent calculated NAV (dated February 25th, 2022) the sub-fund recorded negative performance -6.97% since the inception including dividends.

As of January 16, 2024 services of the most part of executing brokers in relation to Russian equities remain suspended. There was low demand for purchasing of equities from the sub-fund's portfolio among considered potential counterparties. The sub-fund still faced lack of liquidity as of January 2024 due to non-receiving of dividends, paid by equities in the portfolio. There was no success in selling of assets during the January 2024 due to various remaining depository restrictions. There were a limited number of counterparties, which are ready to consider trading & settlement services for Russian equities as of January 2024.

During the January 2024 the Board didn't see improvement of situation with market prices and restrictions to cancel the decision from March 1st, 2022 (NAV calculation, subscriptions and redemptions suspension for the sub-fund).

There is a potential risk of delisting of some equities in the portfolio. In this case the sub-fund will have difficulties to sell them even if sanctions are lifted and trading services are resumed. The sub-fund is not able to operate normally, to receive dividends from equities in the portfolio (due to restrictions imposed on Russian NSD all dividend payments during recent 12 months are affected and considered as receivables).

Sub-fund - ITI Funds Russia-focused USD Eurobond UCITS ETF SICAV

The fund inception date is 30th of January 2018 with USD 25 initial NAV. The fund is denominated in USD and targets tracks total-return index of most rated Russian USD denominated Eurobonds. Accumulated coupons are to be reinvested. In the year 2023 the Board of Directors ceased tracking of the reference index by the sub-fund and started the assets selling process. Due to the position of the Management Company, potential selling is restricted by amount of outstanding sub-fund payments.

As of the most recent calculated NAV (dated February 25th, 2022) the sub-fund recorded negative performance -10.82% since the inception.

The Severstal bond (CHMFRU 3.15 09/16/24) in the sub-fund's portfolio is considered by the Fund Administrator as the defaulted one.

As of January 16, 2024 services of the most part of executing brokers in relation to Russian Eurobonds remain suspended, trading services by other potential counterparties were available only for 60% of bonds (in notional amount).

During the January 2024 the Board didn't see improvement of situation with market prices and restrictions to cancel the decision from March 1st, 2022 (NAV calculation, subscriptions and redemptions suspension for the sub-fund).

Due to sanctions imposed by EU, US and other countries to several Russian companies and organizations after February 2022, at least 50% of the sub-fund assets are affected because of relation of issuers to sanctioned companies / persons, although there are no sanctioned securities in the portfolio of the sub-fund.

Processing of transactions for some bonds was also suspended by Euroclear & Clearstream, making sub-fund unable to receive bond coupons / redemption until the restriction is lifted (more than 50% in amount of scheduled coupon payments during recent 12 months are affected by the measure, such coupons are considered as receivables).

Disclaimer of Opinion

We were engaged to audit the financial statements of ITI Funds UCITS ETF SICAV ("in liquidation") ("the Fund") and each of its sub-funds, which comprise the statement of net assets and the securities portfolio as at 16 January 2024 (date of beginning of liquidation) and the statement of operations and changes in net assets for the period from 1 January 2024 to 16 January 2024, and notes to the financial statements, including a summary of significant accounting policies.

We do not express an opinion on the accompanying financial statements of the Fund and each of its sub-funds. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

Basis for Disclaimer of Opinion

ITI Funds Russia RTS Equity UCITS ETF SICAV ("in liquidation") and ITI Funds Russia-Focused USD Eurobond UCITS ETF SICAV ("in liquidation"), both sub-funds of the Fund ("the Sub-Funds"), are fully invested in Russian and Russian-related equities and bonds ("the Securities") as at 16 January 2024 (date of beginning of liquidation).

As a direct consequence of the military action of the Russian Federation in Ukraine started in February 2022, various jurisdictions have introduced sanctions against the Russian Federation, its selected corporates and individuals. In addition, in response to international sanctions, counter-measures have been introduced by the Russian Federation. These events made it no more possible to trade Russian securities and these securities can no longer be considered as liquid; the Sub-Funds' reference indices stopped to be calculated and the calculation of the net asset values of the Sub-Funds was suspended on 1 March 2022. As a result, on 1 April 2022, the Board of Directors of the Fund proposed to put the Fund into liquidation and these financial statements have been prepared on a non-going concern basis since then. The Fund was formally put into liquidation on 16 January 2024. Further, the Fund was delisted from EU Regulated Exchanges in December 2023 and from Moscow Exchange in January 2024.

Because of the pervasiveness of the above-mentioned limitations, we issued a disclaimer of opinion on the financial statements for the year ended 31 December 2021 dated 30 June 2022, for the year ended 31 December 2022 dated 27 October 2023, and for the year ended 31 December 2023 dated 15 April 2025.

The Securities, in these financial statements for the period from 1 January 2024 to 16 January 2024 (date of beginning of liquidation), reflect their Moscow Exchange prices recorded as at period end for ITI Funds Russia-Focused USD Eurobond UCITS ETF SICAV ("in liquidation") before any valuation adjustments which would have been necessary to reflect their recoverable values as at 16 January 2024 (date of beginning of liquidation); such value adjustments resulted in writing down the Securities values to nil for ITI Funds Russia RTS Equity UCITS ETF SICAV ("in liquidation"). Due to the circumstances described in the preceding paragraph and the lack of available sufficient and reliable market observable data regarding these Securities, the Board of Directors of the Fund is not in a position to assess whether or not the Securities' valuation represents the net realizable value as at 16 January 2024 (date of beginning of liquidation) as per the accounting policy.

Given the above-mentioned circumstances, there is also uncertainty on the recoverability of the amounts recorded in the captions "Dividends receivable, net" and "Interests receivable, net" in the statement of net assets as at 16 January 2024 (date of beginning of liquidation) and the corresponding "Dividends on securities portfolio, net" and "Interests on bonds, net" in the statement of operations and changes in net assets for the period from 1 January 2024 to 16 January 2024 (date of beginning of liquidation).

As a result of all these matters, we were unable to determine whether any adjustments were necessary to the captions "Securities portfolio at market value", "Interests receivable, net", and "Dividends receivable, net" as at 16 January 2024 (date of beginning of liquidation) as well as the related captions in the statement of operations and changes in net assets for the period from 1 January 2024 to 16 January 2024.

Emphasis of Matter

We draw attention to notes 2.1 and 7 of these financial statements, which indicate the decision of the shareholders to put the Fund into liquidation during the Extraordinary General Meeting dated 16 January 2024. These financial statements have therefore been prepared using a non-going concern basis of accounting.

Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements

Our responsibility is to conduct an audit of the Fund and each of its sub-funds' financial statements in accordance with the Law of 23 July 2016 on the audit profession ("Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the Commission de Surveillance du Secteur Financier ("CSSF) and to issue an auditor's report. However, because of the matters described in the Basis for Disclaimer of Opinion section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are independent of the Fund and each of its sub-funds in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

2 - Principal accounting policies

2.1 - Presentation of the financial statements

Further the specific market conditions linked to the war between Russia and Ukraine, the Board of Directors of the Company decided on April 1, 2022 to propose the voluntary liquidation of the Company (see Note 7 on Significant events during the period). Consequently, the financial statements for the year ended December 31, 2023 were prepared under a non-going concern basis in accordance with Luxembourg regulations relating to undertakings for collective investment.

The Fund has been put into liquidation as at January 16, 2024.

Given that the overall situation has not changed, the financial statements for the period ended January 16, 2024 (date of the beginning of the liquidation) are also prepared on a non-going concern basis in accordance with Luxembourg regulations relating to undertakings for collective investment. In the context of the issuance of reporting NAV as of January 16, 2024 (date of the beginning of the liquidation) for the annual report it was resolved by the Directors to use market prices from Moscow Exchange as of January 16, 2024 (date of the beginning of the liquidation) instead of prices of the last official NAV (February 25, 2022), except for the securities mentioned in 2.2 - Valuation of assets for which the Board of Directors of the Fund decided otherwise.

2.2 - Valuation of assets

The value of any cash in hand or on deposit notes and bills payable on demand and accounts receivable, prepaid expenses and cash dividends declared and interest accrued but not yet collected, shall be deemed the nominal value of these assets unless it is improbable that it can be paid and collected in full; in which case, the value will be arrived at after deducting such amounts as the Company or the Management Company may consider appropriate to reflect the true value of these assets.

The Securities and Money Market Instruments listed on an official stock exchange or dealt on any other Regulated Market will be valued at their last available price in Luxembourg as of the Valuation Day (January 16, 2024) (date of the beginning of the liquidation) and, if the security or Money Market Instrument is traded on several markets, on the basis of the last known price on the main market of this security. If the last known price is not representative, valuation will be based on the fair value at which it is expected it can be sold, as determined with prudence and in good faith by the Company or the Management Company.

Unlisted securities and securities or Money Market Instruments not traded on a stock exchange or any other Regulated Market as well as listed securities and securities or Money Market Instruments listed on a Regulated Market for which no price is available, or securities or Money Market Instruments whose quoted price is, in the opinion of the Company or the Management Company, not representative of actual market value, will be valued at their last known price in Luxembourg or, in the absence of such price, on the basis of their probable realisation value, as determined with prudence and in good faith by the Company or the Management Company.

Securities or Money Market Instruments denominated in a currency other than the relevant Sub-Fund's or Class' valuation currency will be converted at the spot exchange rate (T+0) of the currency concerned applicable on the Valuation Day.

The valuation of investments reaching maturity within a maximum period of 90 days may include straight-line daily amortisation of the difference between the principal 91 days before maturity and the value at maturity.

UCIs are valued on the basis of their last available net asset value in Luxembourg. This net asset value may be adjusted by applying a recognised index so as to reflect market changes since the last valuation.

Any other securities and assets are valued in accordance with the procedures put in place by the Company or the Management Company and, where necessary and appropriate, with the support of valuers who will be instructed to carry out valuations.

Liquid assets are valued at their nominal value plus accrued interest, or on the basis of amortised costs.

The Petropavlovsk PLC equity (ISIN: GB0031544546) is evaluated at 0 (zero) in accordance with the Board decision as the special administration of the Issuer indicated that the Petropavlovsk PLC is undergoing insolvency proceedings.

The Russian government bond XS0971721450 was priced according to the latest available price as of September 14, 2023, Refinitive Early (BID Close) based on the standard pricing policy applied to this Fund.

The Company is exempt from the annual subscription tax (taxe d'abonnement).

6 - Changes in the composition of securities portfolio

A copy of the list of changes in the portfolio of each sub-fund may be obtained free of charge at the registered office of the Company for the year under review.

7 - Significant events during the year

Dissolution of the Company:

On March 1st, 2022, the Board of Directors resolved to the suspension of the calculation of the net asset value of shares based on clause 12 of the Fund's article of incorporation and on clause 23 of its prospectus, suspension of subscriptions and redemptions in the primary market and suspension of the trading of each of the sub-funds in the context of the recent capital restrictions introduced in Russia as well as the sanctions upon Russia

As the Company is investing through its two sub-funds, namely ITI Funds Russia RTS Equity UCITS ETF SICAV and ITI Funds Russia-Focused USD Eurobond UCITS ETF SICAV, in Russian securities, the Board took the view that the investment strategy of both sub-funds could no longer be pursued in an efficient manner because of the Russian-Ukrainian war, which is submitting the Russian economy to higher pressure, in particular, through the economic sanctions which are imposed by the European Union, the United States of America, the United Kingdom and other countries.

Notes to the financial statements

7 - Significant events during the year

As it was not possible to determine when the situation with sanctions and restrictions would get better, the Board considered the dissolution of the Company as the most beneficial option for interests of shareholders. The dissolution of the Company allows to return investments to shareholders as soon as it becomes practically possible in the scope of developing situation with sanctions. It also reduces ongoing costs of the Company to the minimum for the period before investments are returned.

With effective date April 1st, 2022, the Board of Directors decided to propose the voluntary liquidation of the Company because of the poor market and regulatory perspective.

Eight general meetings were convened to vote on the liquidation. There were four rounds – no quorum was obtained at the first general meeting of each round. For the second general meeting in first three rounds, one of the investors (or group of investors) repeatedly voted against the liquidation. On the second general meeting in the fourth round the liquidation was approved by shareholders.

Explanation on the split of the liquidation fees:

The allocation of liquidation fees and the liquidation budget was carried out by the Board of Directors and the liquidator with the aim of adhering as closely as possible to the SICAV's prospectus. It is reminded that the prospectus states that each Sub-Fund shall pay for the costs and expenses directly attributable to it. Costs and expenses that cannot be attributed to a given Sub-Fund shall be allocated to the sub-funds on an equitable basis, in proportion to their respective net assets.

Therefore, the split between sub-funds has been determined as follows:

- a) Estimate fees for the liquidation period or invoice already issued in the name of one Sub-Fund: these liquidation fees are considered payable by the sub-fund in question.
- b) Invoice issued in the name of the SICAV: in this case, several factors need to be analysed. For future invoices and estimated fees, as stated in the prospectus, the split is based on Total Net Asset (TNA). Since the portfolio of the ITI Funds Russia RTS Equity UCITS ETF SICAV Sub-Fund, in these Financial Statements and until further notice, currently valued at zero (0), the entire payment will be borne by ITI Funds Russia-Focused USD Eurobond UCITS ETF SICAV Sub-Fund. It is worth noting that if the pricing agreement or service provider specifies a different split (e.g., 50% for each Sub-Fund or based on the TNA at the invoice's issuance date), then that specific split is applied.

Regarding invoices issued before the liquidation, the same principles apply, and the split is based on the TNA as of January 16, 2024, which will be the most recently audited.

Finally, for invoices issued before the liquidation starting date where a partial payment has already been made to cover one Sub-Fund's percentage, the remaining portion of the payment is allocated to the other Sub-Fund.

Explanation of the estimated duration and Liquidation Process:

The securities held in ITI Funds UCITS ETF SICAV are mainly Russian-linked assets. The EU Russia-focused sanctions and regulations evolve regularly and consistently. The situation is similar on the Russian side, with numerous laws and decrees enacted against and in response to the European Union sanctions. As a result, based on the liquidator's experience, a liquidation period of 5 years was estimated, and service providers were therefore asked to provide their fee estimates for this duration.

Given the complexity of the laws and regulations governing potential sales of the portfolios, coupled with the highly constrained market resulting from the illiquidity of the held securities, the liquidator has opted to appoint liquidator's advisors with expertise in Russian markets.

Among the Liquidation Budget considered in these Financial Statements, the main items and amounts are listed below:

- 1. Edmond de Rothschild (EDR)'s fees: the global amount accrued regarding EDR's fees is set at EUR 760,191.33 (including VAT). This amount includes the invoices issued and received, as well as a yearly flat fee of EUR 41,020 (including VAT) per Sub-Fund, negotiated by the Board and the liquidator, covering all services provided by EDR during the liquidation period.
- 2. Liquidator's advisors: the total amount accrued for both service providers is valuated at EUR 409,500 (including VAT). This amount is allocated to Oryx Partners FZCO for EUR 117,000 and a second advisor to be appointed (potentially Greenstar Investments DMCC) for EUR 292,500 (as explained previously, totally supported by ITI Funds Russia-Focused USD Eurobond UCITS ETF SICAV Sub-Fund). It has to be noted that some success fees (related to the sale of the portfolios) could be paid to these advisors but are not accrued.
- 3. Liquidator's fees: given the estimated duration of 5 years and as per the pricing offer signed by the Board prior the liquidation starting date, the expected liquidator's fees amount to EUR 177,816.60 per Sub-Fund (including administrative fees and VAT).
- 4. Buffer: given the complexity and the duration of the liquidation, the liquidation budget encompass a buffer of EUR 300,000. EUR 100,000 of the buffer were allocated to ITI Funds Russia RTS Equity UCITS ETF SICAV Sub-Fund and EUR 200,000 to ITI Funds Russia-Focused USD Eurobond UCITS ETF SICAV Sub-Fund.
- 5. Audit fees: as at the date of this reports, three (3) audits will be performed by KPMG Audit S.à r.l.: the audit of the Financial Statements as of December, 31 2023, the audit of the Financial Statements as of January, 16 2024 (date of the beginning of the liquidation) and the review of the liquidator's report and the liquidation closure accounts. Therefore, the total amount accrued is EUR 100,203.48 (as explained previously, totally supported by ITI Funds Russia-Focused USD Eurobond UCITS ETF SICAV Sub-Fund).

Due to depository restrictions and imposed sanctions the Fund had no access to Russia-related markets. This made impossible to track the index of Russian equities, as it required purchasing of shares. Also, in year 2022 the RTS index licenser (S&P) suspended commercial operations in Russia and terminated RTS Index maintenance agreement with Moscow Exchange. As the consequence, the ETF License for RTS index tracking for ITI Funds Russia RTS Equity UCITS ETF SICAV was also terminated. There was no success in putting ITI Funds UCITS ETF SICAV into the voluntary liquidation in the year 2022. As it was not clear when there would be enough votes on a general meeting of shareholders in favor of the voluntary liquidation, the Board suggested an action plan to the Luxembourg regulator, which included ceasing of index tracking for both of subfunds. No objection was received from the Regulator, and the action was implemented in July 2023, accompanied with a notice to shareholders.

Notes to the financial statements

7 - Significant events during the year

During the period from the beginning of the year to the end of July 2023 the Board of Directors had convened two extraordinary general meetings of shareholders, suggesting to put the Fund into the voluntary liquidation. As ITI Funds Russia RTS Equity UCITS ETF SICAV liquidity issues restricted the Fund's ability to pay to service-providers and as the date of the liquidation beginning (on which the most part of agreements with service-providers could be terminated to reduce costs of the Fund) was not clear, the Board decided to terminate some agreements with service-providers prior to the future beginning of the liquidation. Astana International Exchange terminated the Fund's listing at the end of July 2023 in accordance with internal rules due to long period of trading suspension. The Board also decided to terminate the Fund's listing on London Stock Exchange and related agreements with service-providers. The decision was implemented in October 2023. The Board of Directors also decided to keep the primary listing on Euronext Dublin and the dependent listing on Moscow Exchange until the end of the year 2023. After a review of situation with the Fund Legal in December 2023, the Board agreed to terminate remaining stock exchange listings of the Fund and related agreements with service-providers. Primary listing on Euronext Dublin was terminated at the end of the year 2023. Moscow Exchange terminated the Fund's listing in January 2024, in dependency with the termination of primary listing on Euronext Dublin.

The Extraordinary General Meeting of the shareholders held on January 16, 2024 (date of the beginning of the liquidation) decided to put the Company into liquidation and to appoint ME Business Solutions S.à r.l., represented by Mr. Eric Chinchon as liquidator.
